

Ethics in Education Act Notice

As a school, Suncoast Christian Academy (SCA) has chosen to participate in the Florida Department of Education School Choice Scholarship program.

Pursuant to the requirements set forth in the 2008 Ethics in Education Act, SCA and all of its personnel and Officers operate under the following guidelines and laws;

Senate Bill 1712 (Chapter Law 2008-108), the Ethics in Education Act, became effective July 1, 2008 and impacts certain operational procedures for private schools participating in the Step Up and McKay Scholarship Programs.

The Act amends Section 1002.421, Florida Statutes, related to participating private school accountability, by adding new

employee screening requirements. The private school accountability statute amendment requires private schools to develop standards of ethical conduct for the school's instructional personnel and administrators.

All Suncoast Christian Academy Officers and employees are screened with a level II background screening prior to hiring and re-screened periodically as required by state statutes.

For more information please call our school office at (561) 641-1446.
